## DETAILED ACTION

### ***Allowable Subject Matter***

**Claims 10, 12-15 and 17-20** are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent **Claim 10**, prior art fails to teach "comparing frame polarity signals from the first and second display driver integrated circuits ... correcting the polarity difference of the video information between the first and second display driver integrated circuits".

**Claims 12-14** depend either direction or indirection from Claim 10.

Regarding independent **Claim 15**, prior art teaches that video information is stored at the same time in the first, second, and third micro-displays but fails to teach an internal clock for both the first and second display drivers where the first and second display drivers are coupled to a single liquid crystal micro-display as claimed.

**Claims 17-20** depend either directly or indirectly from Claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
